NO REFUNDS

PLEASE READ

For every couple hundred sales we make I get a scam artist trying to purchase Wholesale Sneakers List and then get their money back. It says on the sales page, on the download page, in the refund policy, in the e-book, and again right here: **NO REFUNDS**. That means no refunds for ANY reason. There is NOTHING you can say that will get you a refund, don't ask. If you use the contact information on the Wholesale Sneakers List site you be talking to customer service. Customer service will not discuss refunds. Customer service is there for download and technical issues. They are not there to answer specific questions about Wholesale Sneakers List. We used to sell Wholesale Sneakers List in forums for \$497 and we had hundreds of satisfied customers at that price. Now that I've opened it to the general public for a lower price we'll get a low grade scammer every once in a while. There will be NO REFUNDS under any circumstance. We do not care what your excuse is. Wholesale Sneakers List is absolutely the #1 Sneakers List available anywhere PERIOD! We have been building and updating this list for years with hundreds of positive testimonials and success stories. So please DO NOT ask for a refund. The answer our customer service will give you is "**THERE ARE NO REFUNDS**". Now that we got that out of the way for the 0.001% of scammers out there, I apologize to everyone else and now please enjoy Wholesale Sneakers List. If you take the time to look at each of the sites on the list and read everything I've written I KNOW your shoe game will go to the next level. To Your Success – Michael David

Wholesale Suppliers

Some Websites may be unavailable temporarily. That does not mean these sites are gone. If a link is dead or a store goes out of business the links are removed from this list.

Stores that sale at retail or even above retail (yeah that's right) are included if they sale legitimate sneakers and allow for profits to be made or are places you can get sneakers for your own collection that you would have trouble finding anywhere else.

The Difference between Authentic and Fake Jordans

Variants

The Variant kicks are fakes. Many sites use this term but it is bullsh*t. Variants are fakes, final point! Take a close look at the Policy section on any Website that sells kicks, it might be hidden somewhere (so try to search and read carefully) but it will usually say something like "these shoes are factory variants".

Samples

You should know (and trust me you will notice it, if it is not mentioned by the Website) that "samples" always come in Size 9 with no box sometimes wrapped in a plastic bag and are used to test different looks and colors for the shoe. You will certainly see and notice very rare and unusual samples that you might like and that could be very valuable in the future!

Look Alikes

These can be found in department stores or store that advertise sneakers at very cheap price (for instance all shoes are \$15.99, you might see some look alike Nike Air Force Ones or Nike Jordans) . They are usually made by unknown Chinese or South American factories.

Trust me, I will not call them look alike, but maybe: look alike SH*T!

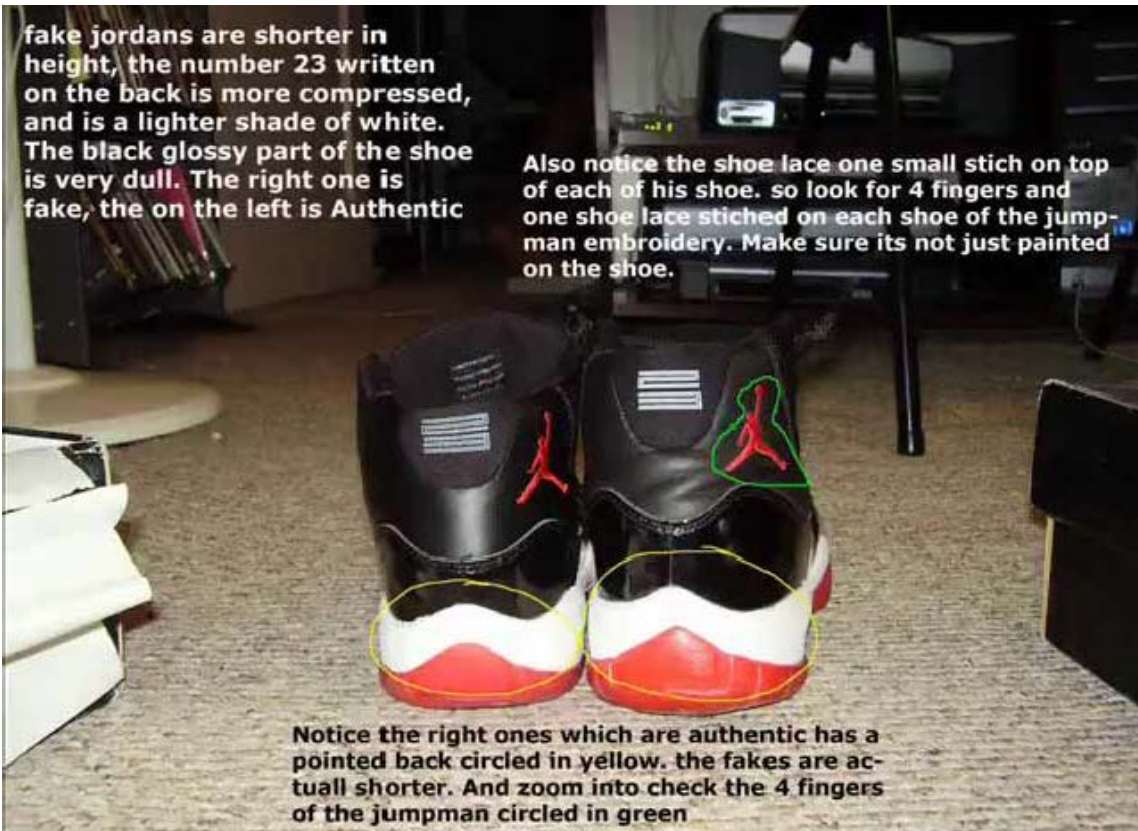

Customs

If you see a shoe in a non-original color way, it is either a sample (weird color or just a color that is impossible or very rare to find, but mostly valuable sometimes!), a fake or a 'custom.'

Customs are shoes that have been, as the word says it all, customized per the buyer's demand... Some sites call their shoes "customs" but they are fakes.

fake jordans are shorter in height, the number 23 written on the back is more compressed, and is a lighter shade of white. The black glossy part of the shoe is very dull. The right one is fake, the one on the left is Authentic

Also notice the shoe lace one small stitch on top of each of his shoe. so look for 4 fingers and one shoe lace stitched on each shoe of the jumpman embroidery. Make sure its not just painted on the shoe.

Notice the right ones which are authentic has a pointed back circled in yellow. the fakes are actual shorter. And zoom into check the 4 fingers of the jumpman circled in green

Notice the Fake Jordans have the carbon fiber support painted on. The one on the top is fake, you can scratch the paint off it, you can also bend it with your finger. Real carbon fiber is very hard.

FAKE

Authentic

7 21:44

the ones on the left are fakes, they are also brand new and not as glossy
the ones on the right are authentic, worn for 2 years, still more glossy than
the new fakes.
The fakes also look much smaller and shorter compared to the authentic
shoes

Fake jordans are shorter than authentic jordans. You will not be able to tell the difference unless you hold both real and fakes in your hands.

Jumpman Embroidery has 4 fingers stiched on each hand an laces stiched on each feet. If your jumpman has 3 fingers, the shoes are fakes

fake Jordans come wrapped in tissue paper, as opposed to real brown paper.

Laces are thinner on the fake shoes, and the GLOSS is very dull. The one on the left is fake

if you take a flash light and hold it behind the white tag inside the shoe you will notice, white perforations on the side of the tag. if you see these, the shoe is a fake.

Fake jordan box tags usually give a sign of spelling mistakes, or acronyms

instead of saying Air Jordan 5 Retro
it says A JRDN 5 RET

The tag on the Fake Jordan Box is not stuck neatly. Authentic boxes also have a "Do not launch product before ** date" tag

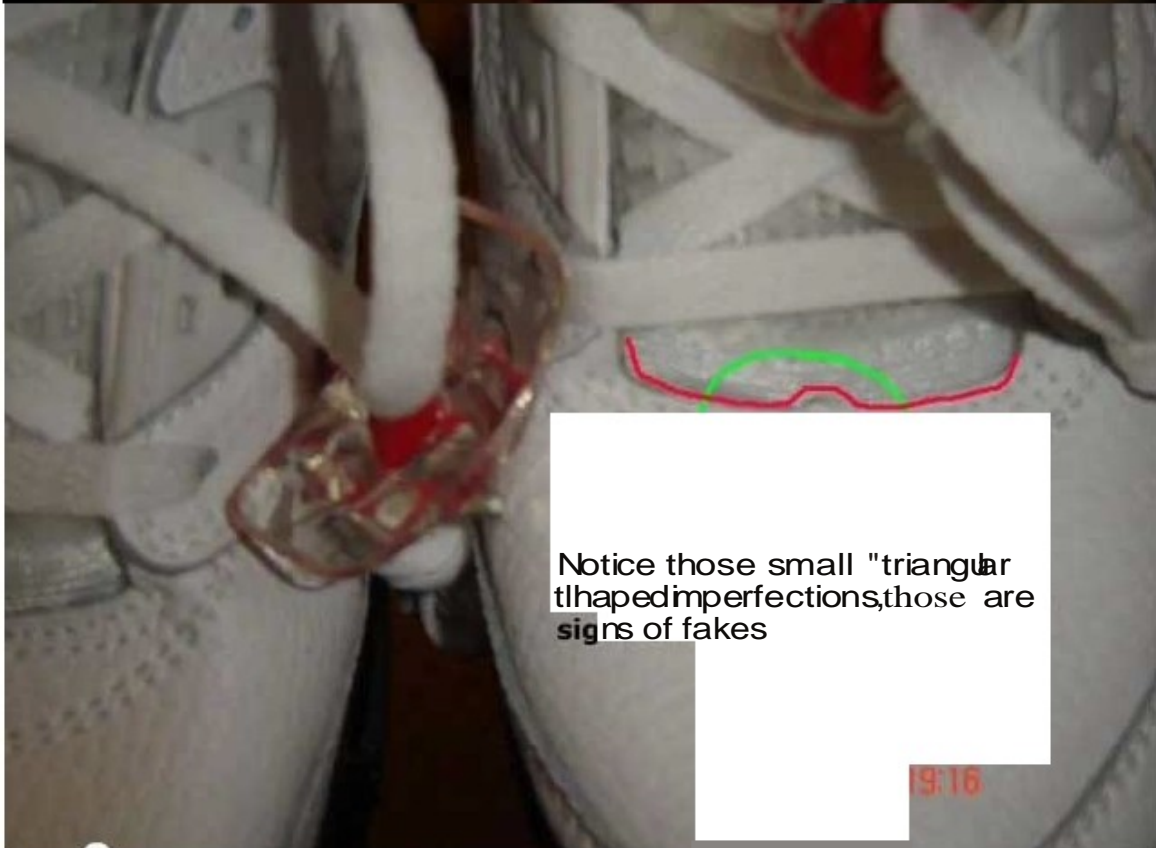

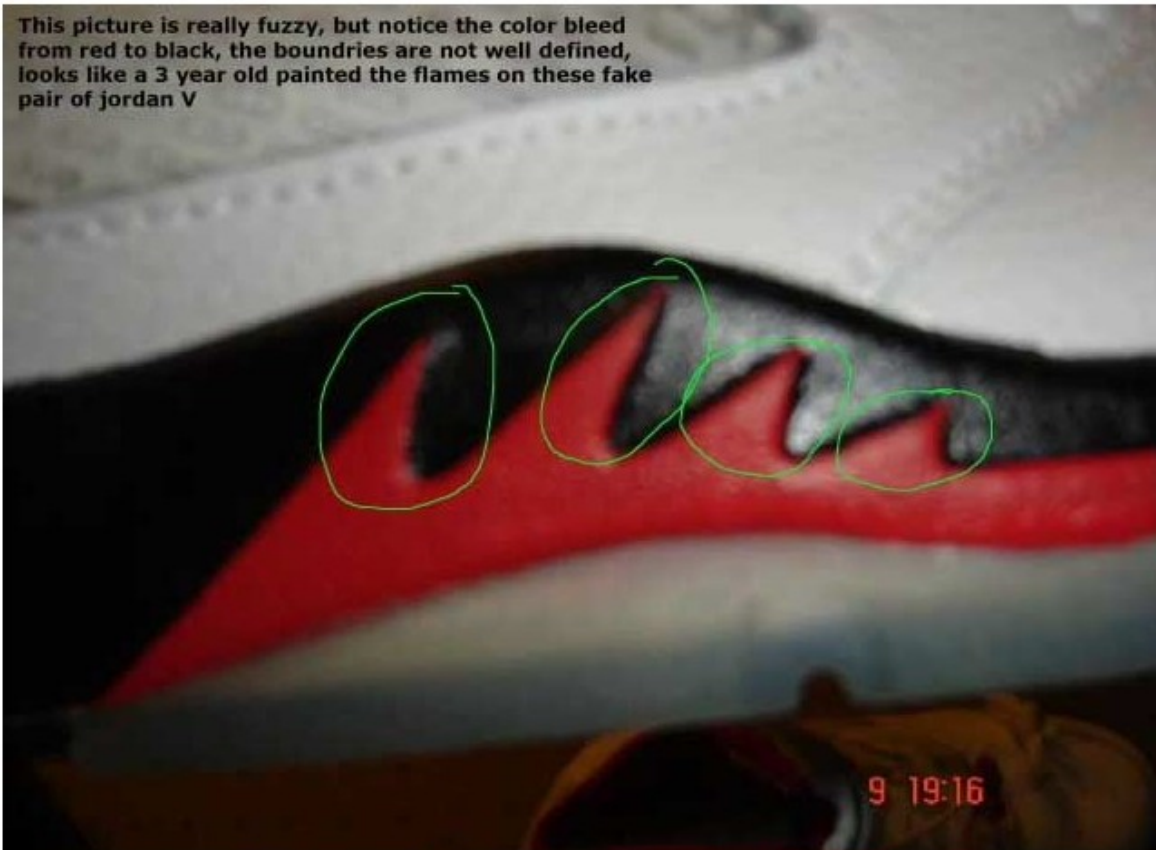

Fake box on left, tag on box is not left aligned is is missing the "Do not sell before" tag

Check out the ghetto stitching job when i removed the insoles from a pair of fake Jordan V
First of all you should not be able to just remove your insoles from your jordans, unless they are Jordan XXI's in which case you can.
In general a shitty finishing job, and cheap material is a sign of a fake.
Make sure your Jumpman logo on the toungue is Embroidered and not painted.

This picture is really fuzzy, but notice the color bleed from red to black, the boundaries are not well defined, looks like a 3 year old painted the flames on these fake pair of jordan V

Notice those small "triangular shaped imperfections, those are signs of fakes

Fake pairs get mass produced out of a single sheet of canvas, and usually stamped out using heavy metal equipment out of a stencil. All through fake jordans you will notice these funny ^ triangular imperfections

9 19:16

Cheap quality material used to make shoes that end up costing 20 bucks, but sold for a 400 % profit. These are brand new fakes out of the box, and the nose of the shoe looks all limp
